

Westchester Medical Center Health Network is currently recruiting a Trauma Program Manager to join our trauma team in MidHudson Regional Hospital, located in Poughkeepsie, New York.

Trauma Program Managers are essential for the success of our trauma centers and play an important role in partnering with Trauma Medical Directors for performance improvement, research and systems development.

Preferred qualifications include:

- Minimum of 3 years of experience in trauma/emergency care/critical care, preferably in a Level I or II center. Previous leadership role preferred.
- BSN required – Master’s preferred. Certification in either Emergency Nursing (CEN), Trauma Certified Registered Nursing (TCRN), Critical Care Nursing (CCRN) preferred.
- Current certification in TNCC or equivalent trauma training.
- Current certification in BLS, ACLS, PALS required, instructor status preferred.
- Experience with trauma registries, performance improvement and education experience a plus.

WMCHealth Network spans 6,200 square miles with a total of seven hospitals on five campuses within the Hudson Valley Region of New York State with nearly 1,500 beds. The network currently includes one ACS verified Level I Adult Trauma Center at Westchester Medical Center , one ACS verified Level I Pediatric Trauma Center at Maria Fareri Children’s Hospital and one Level II Trauma Center at MidHudson Regional Hospital (ACS verification pending).
